

# 2008 SPRING BULL & FEMALE SALE

Monday, March 17, 2008 • 1:00 pm (cst) • At the Ranch - Emporia, Kansas

## THE EBY FAMILY STORY

Since he was a young child, Don Eby's dream was to have a family business. From a small Kansas farm where there was barely enough income to support one family, Don ventured off to realize his dream. After serving in the military in the late 60's and early 70's Don found himself working in the heavy equipment industry. Caterpillar was very rich in the legacy of family business. As a Caterpillar dealer for more than 20 years, Don began to see the rewards of owning a family business, further inspiring his dream.

Don's sons, Mike, Joe and Andy, worked their way through the organization; from sweeping floors to managing the warranty department. After selling the Caterpillar dealership to pursue other ventures, Don's mother-in-law, Mary Bickford, was diagnosed with Alzheimer's disease. Because she needed additional care and no suitable options were available, Don and his wife Judie built their first assisted living residence and Mary became their first resident. So Bickford Senior Living was founded and 15 years later, has turned into a successful provider of senior housing across the Midwest in over 37 locations, soon to be expanding to the east coast.

Don's greatest fear when he sold his Caterpillar dealerships was that he would not have a family business. However, as the need and opportunity presented themselves, each of his three sons has not only joined the senior housing business but they have been an integral part of the success of the business. With his son's carrying on the family legacy in the senior housing business, Don was now free to pioneer another of his dreams, to run a successful cattle ranch.

With generations of ranching and cattle background in his family, Don had always had a desire to find success in providing high quality cattle to the industry. Several years later, Eby Ranch is now a full service Seedstock producer offering a combination of proven Angus & Gelbvieh genetics. Also combining the Angus with the longevity and reproductive efficiency of the Gelbvieh resulting in Balancers, the commercial industry's answer to the benefits of heterosis without compromising end-product merit.

The Eby Cattle herds are made up of females from some of the most influential Angus and Gelbvieh genetics in the U.S. Customers can buy from Eby Cattle bulls, females and heifers that will give them the value added performance genetics and choice options to improve their herds.

Don's vision for Eby Ranch became the driving mission, to not only be a superior source of seed stock genetics that are functional and profitable, but to also provide a true customer service to allow for the producers to stay current and adapt with not only what we are presently facing in the industry but also with the changes and impact of the future.

Black Cross is our herdsire leased to ABS and semen is sold industry wide. He is double black and scurred. This sire is the number 3 sire in the breed for feedlot merit, the number 7 sire in the breed for carcass value, the number 10 sire in the breed for yearling weight and in the top 20 sires for marbling. A very rare opportunity to purchase a proven herdsire with the value already proven. There cannot be enough said about the value of this AI sire selling.

Selling full possession and 50% semen interest in Black Cross 3002N.

# EBY RANCH SPRING BALANCER® & GELBIEH BULLS

**LOTS 59-64**

Great Western has done us an outstanding job here at Eby Ranch. Great Western sired the 2008 National Champion Balancer Bull in Denver and the 2008 Reserve National Champion Balancer Female in Denver. This group of Great Western sons will work on cows and will sire growth and eye appeal. Lots 59-63 are double black double polled Balancer bulls and lot 64 is a double black double polled purebred Gelbvieh bull.
